Aleksandar Djuric

Frontend developer

I am a Front-end web developer with a passion to create things. Skilled in Javascript and Angular, always eager to learn and implement new technologies. Meticulous in everything I do with passion to always improve and perfect my work. I am working as a case manager in Center for social work. I started learning programing in elementary school and gone in programing competition, take first place in district of Srem. Now I'm back to my first love, programing.
