Aleksandar Djuric

Frontend developer

I am a Front-end web developer with a passion to create things. Skilled in Javascript and Angular, always eager to learn and implement new technologies. Meticulous in everything I do with passion to always improve and perfect my work. I am working as a case manager at the Center for social work. I started learning to program in elementary school and went to a programming competition, taking first place in the district of Srem. Now I'm back to my first love, programming.
